SITUATION SUMMARY

Governor Brown Declares State of Emergency in California to Bolster Wildfire Response

- With wildfires burning across the state – exacerbated by severe drought conditions and extreme weather – Governor Edmund G. Brown Jr. today declared a state of emergency in California to help mobilize additional firefighting and disaster response resources.
- “California’s severe drought and extreme weather have turned much of the state into a tinderbox,” said Governor Brown. “Our courageous firefighters are on the front lines and we’ll do everything we can to help them.”
- See link for the full text of the proclamation: <http://gov.ca.gov/news.php?id=19053>

SOC Activation for California Wildfires

- The State Operations Center (SOC) will be activating at Level 2 from 0900-1900 hours through Sunday due to the wildfires burning throughout California. Per Coastal Region management, the Coastal REOC is also at level 2 from 0900 to 1900 hours this weekend. The Inland REOC remains activated at Level 1.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Fire Weather is still a concern for mainly northern California as scattered showers and thunderstorms continue through the weekend bringing the possibility of a few lightning induced fire starts.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Sub-tropical moisture streaming in from the south and a vigorous low off the coast will combine to generate scattered showers and thunderstorms across northwest California through Sunday. Conditions will gradually improve Monday with more seasonal temperatures expected.

Medford Weather:

An upper trough will remain offshore and continue to pump mid level moisture and instability over the region through Sunday evening. There will be several disturbances moving over the area as well and the low levels are still very dry, so most but the strongest storms will likely produce only light rain. All of this will result in a persistent chance for mostly dry thunderstorms over much of the region through Sunday morning. Storms become wetter Sunday evening and Monday. The greatest threat for storms will be during the afternoon and evening hours, however, storms may continue overnight in many locations.

Reno Weather:

Showers and thunderstorms continue through the weekend with gusty outflow winds and possibly a few lightning induced fire starts. Lightning and locally heavy rainfall will be the main threats from this weekend's storms. Afternoon temperatures will fall to near average on Sunday with thunderstorm chances continuing Monday and Tuesday.

San Francisco Weather:

A subtle cooling trend is forecast to continue into early next week as onshore flow and the marine influence increases. Aside from patchy coastal drizzle and fog during the overnight and early morning hours, dry weather conditions will likely persist through the forecast period.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Cooler weather next week. Daytime highs near normal or below normal for much of next week. Scattered mountain thunderstorms through Sunday, elsewhere continued dry. Slight chance of a return of mainly mountain thunderstorms Tuesday.

Hanford Weather:

A cooling trend will take place over central California Sunday into next week with dry conditions across the area by Tuesday. A warming trend will occur over central California Wednesday and Thursday as high pressure over southern California slowly nudges north into the area.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A trough of low pressure off the coast and a ridge of high pressure over the four corners region will result in near normal temperatures in most locations through next week, along with night through morning low clouds and fog west of the mountains. Slight cooling is possible by late next week as low pressure off the coast moves east.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

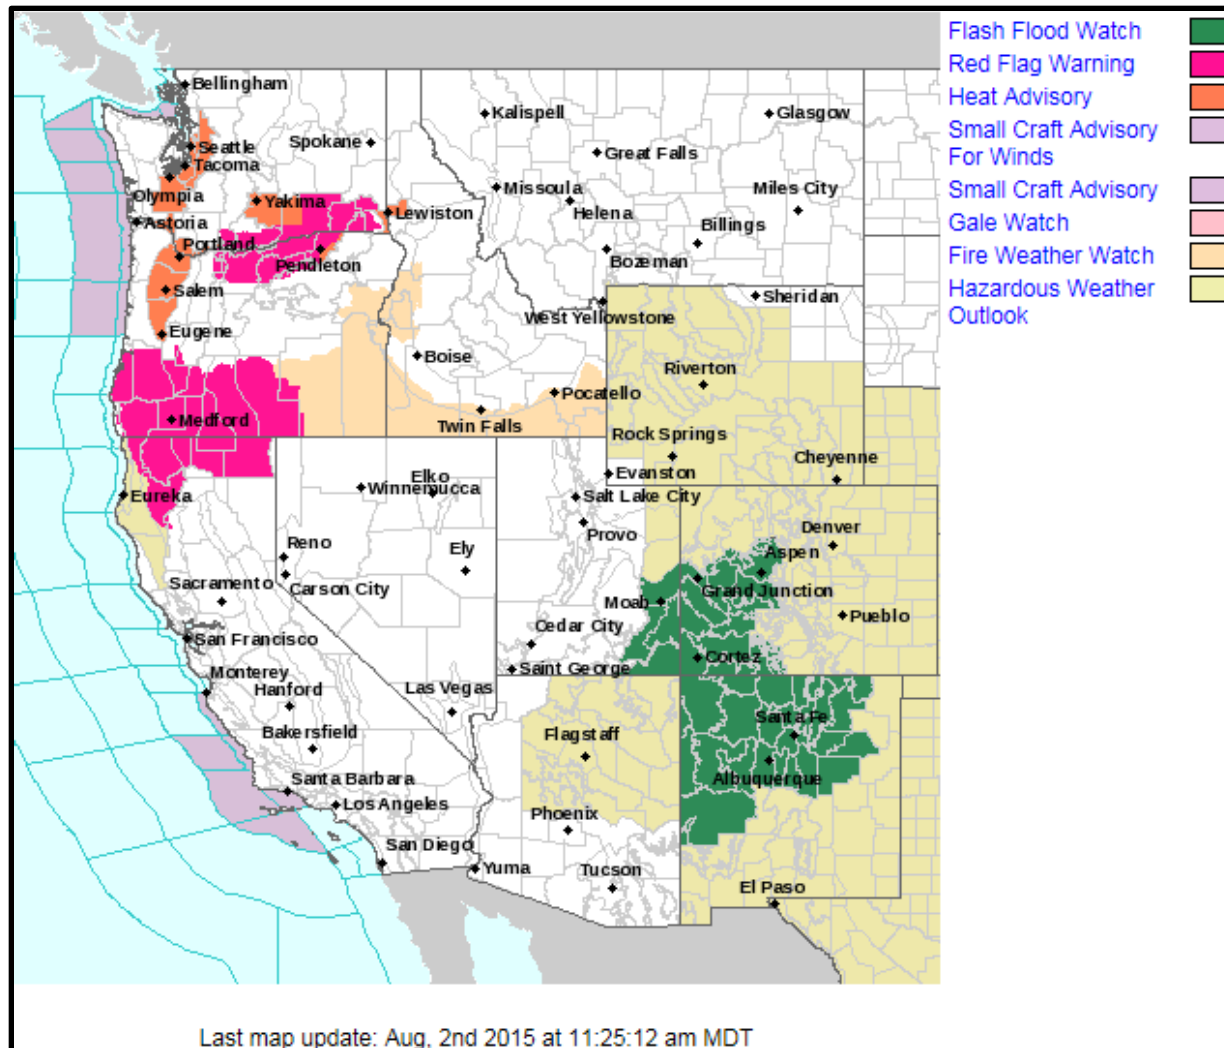

A low pressure trough off the West Coast will force monsoon moisture eastward over Arizona through the middle of next week. The trough will also keep temperatures near their seasonal averages for early August. The marine layer will be deep enough for low clouds to reach the western valleys each night and retreat to near the coast each afternoon. Gusty west winds will surface in the mountains and deserts each afternoon.

Southeast California Weather:

A few showers and thunderstorms are expected again today and early evening mainly east and north of Las Vegas as a weak disturbance moves north through the region. Overnight tonight, much drier and more stable air will work into the region confining any storms to mainly northern Inyo County Monday. Dry conditions are expected Tuesday and Wednesday, but thunderstorms chances will creep back into Arizona by the end of the week.

SITUATION SUMMARY

Please see the Cal OES/Cal Fire Joint Report 08/02/15 at 0900 Hours attachment for detailed fire information.

FIRES, NORTHERN OPERATIONS AREA

Active

- Fork Complex, Vegetation Fire, Trinity County
- Frog, Vegetation Fire, Modoc County
- Humboldt LCA, Vegetation Fire, Humboldt County
- Lowell, Vegetation Fire, Nevada County
- Mad River Complex, Vegetation Fire, Trinity County
- River Complex, Vegetation Fire, Trinity County
- Rocky, Vegetation Fire, Lake County
- Swedes, Vegetation Fire, Butte County
- Wragg, Vegetation Fire, Napa and Solano and Yolo Counties

FIRES, SOUTHERN OPERATIONS AREA

Active

- Big Creek, Vegetation Fire, Tuolumne County
- Cabin, Vegetation Fire, Tulare County
- Willow, Vegetation Fire, Madera County

Final

- Cutca, Vegetation Fire, San Diego County

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Recovery/Individual Assistance provided **an initial** 1,000 copies of the 2015 Drought Brochure to DWR for distribution at the State Fair beginning Friday, July 10, 2015. DWR requested an additional 1,000 copies of the brochure. This subsequent order was completed and delivered on July 21, 2015.
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 60 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County) and City of Willits (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Cal OES Recovery

MGT-347 NIMS Incident Command Systems Forms

Description

Learn about and use the most common Incident Command System (ICS) forms. The course will prepare you to work with the ICS Forms used in the Incident Command Planning process to assist in the development of an Incident Action Plan (IAP).

You will be introduced to the forms and will practice how to develop and write effective objectives to manage an expanding all-hazards incident. The course will allow you to learn and experience the benefits of using the forms in responding to emergencies or managing planned events.

Prerequisite

IS-100.b, FEMA Introduction to the Incident Command System (ICS-100)
IS-200.b, FEMA Incident Command System for Single Resources and Initial Action Incidents, ICS-200
IS-700.a, Introduction to the National Incident Management System (NIMS)
IS-800.b, National Response Framework (NRF), An Introduction

Date: August 11 & 12, 2015 **(2 sessions each day)**

Time: 8:00 am – 12:00 pm / 1:00 pm – 5:00 pm

Location: Governor's Office of Emergency Services
10390 Peter A. McCuen (California Training Room)
Mather, CA 95655

No Cost!
(Limited Seats)
